

Elgin Fastener Group
The right fastener right now.™

Elgin Fastener Group (EFG), headquartered in Batesville, IN, has demonstrated significant growth since their acquisition in August, 2011 by the Boston-based private equity firm, Audax Group. This growth has been accomplished both organically and through

new acquisitions, as EFG pursues their goal of becoming the #1 domestic specialty fastener manufacturer in North America.

Starting with a core that included Ohio Rod Products, Leland Powell Fasteners, and Chandler Products, EFG has acquired Silo Fasteners and Landreth Fastener (2011), Quality Bolt & Screw and Northern Wire (2012), and Telefast Industries and Vegas Fastener Manufacturing (2013).

Building on a strong foundation of cold heading experience, the EFG companies now offer a wide array of specialty, standard, and custom engineered fasteners that originate from five manufacturing pillars: Cold Formed Open Die, Cold Formed Closed Die, Licensed/Branded Products, Hot Forging, and Wire Forms/Stamping.

Elgin Fastener Group will be exhibiting in Booth #401 at the 2013 National Industrial Fastener and Mill Supply Expo (NIFMSE) in Las Vegas, NV, and in Booth #4153 at the 2013 Power-Gen International show in Orlando, FL.

Elgin Fastener Group can be viewed online at www.elginfasteners.com, contacted via email at quotes@elginfasteners.com, or via telephone at 812-689-8917. EFG can also be reached via LinkedIn, Facebook, or Twitter.
